

IMPACT

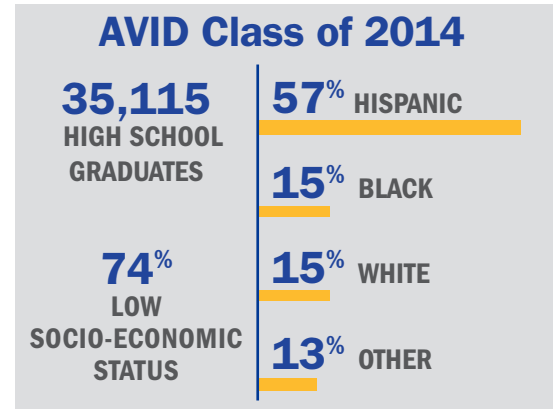

More students enroll in and persist in college!

AVID Works. How Do We Know This?

For over 35 years, AVID (Advancement Via Individual Determination) has provided educators nationwide a proven solution for systematically increasing academic rigor and creating engaging learning environments, accelerating the performance of underrepresented students and delivering results schoolwide.

AVID Graduates: Enroll in College at Higher Rates

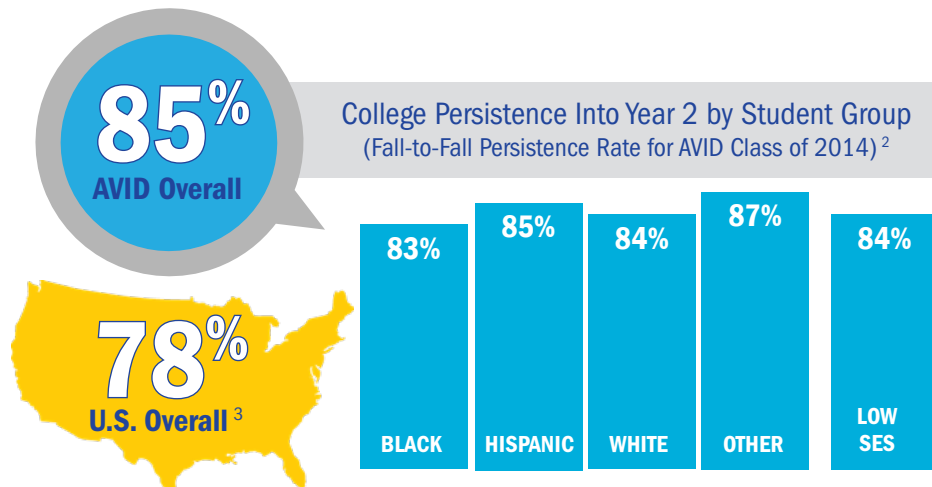

AVID 2014 seniors outpaced the national average of enrolling in either a two- or four-year college the first fall term after high school¹. This success is remarkable considering AVID's population is largely comprised of students typically underrepresented in higher education.

Persist into Year 2 of College at Higher Rates

AVID graduates “stick with it”—applying the learning, study, and academic behavioral skills gained through AVID—to succeed in rigorous college coursework year after year.

AVID is closing the achievement gap with equitable persistence among diverse groups of college students.
